

For more than 45 years, Plymouth Housing has provided **permanent homes** and **on-site supportive services** like housing case management and health care to help our neighbors leave homelessness behind for good.

WHY IS OUR WORK SO CRITICAL TODAY?

The need for effective solutions to homelessness in our region is urgent.

According to the King County Regional Homelessness Authority's 2024 Point-in-Time Count, **an estimated 11,113 people are experiencing long-term (or chronic) homelessness in King County on any given night.**

WHO DOES PLYMOUTH SERVE?

Through **18 buildings** in King County, Plymouth provides permanent homes to nearly **1,500 single adults** who have experienced long-term homelessness.

OF THOSE WE SERVED IN 2025

- 92%** At least one disability
- 62%** Mental health disability
- 57%** Substance use disorder
- 54%** Identify as Black, Indigenous, or People of Color
- 31%** Physical disability or chronic health condition
- 9%** Military service veterans

HOW DO WE SERVE OUR RESIDENTS?

Our model of **permanent supportive housing** gives residents the solid base they need to rebuild their lives and leave homelessness behind.

- By "permanent," we mean that there is **no time limit** on our housing.
- By "supportive," we mean that we connect our residents with **on-site services** that can help them thrive.

HOW DO WE KNOW OUR APPROACH IS WORKING?

Supporting our residents' unique needs has resulted in **over 95%** staying housed permanently after moving into Plymouth Housing.

Our Housing First approach is cost-effective as well as compassionate. For example, chronic homelessness can result in increased time in the emergency room and jails, which are costly alternatives to housing.
